

## Workplace Health and Safety Policy

JDV Projects is committed to providing workers and visitors with a healthy and safe working environment. JDV Projects strives to fully integrate health and safety into all aspects of its activities, and is committed to complying with all legislation, regulations and all other relevant requirements, including client and industry imposed requirements.

With this philosophy in mind, JDV Projects has adopted **AS/NZS 4801:2001 – Occupational Health and Safety Management Systems** as the basis for our safety management. We are committed to conforming to the requirements of the Standard and to our systems, and to continually improving their effectiveness via ongoing review of our performance against our set objectives and targets.

JDV Projects sustains a program of continuous improvement, enforcing our commitment to health and safety associated with the use of our products and delivery of our services. This is achieved by:

- Implementing and maintaining a framework that ensures the systematic management of health and safety throughout all sites and in accordance with all legal and other requirements;
- Setting measurable objectives and targets aimed at controlling higher risk activities and increasing awareness of health and safety;
- Continually improving health and safety with the goal of eliminating work-related injury and illness; and
- Promoting a proactive health and safety management philosophy based on effective communication, consultation and education, the systematic identification, assessment and control of hazards and the encouragement of innovation.
